Richard J. Schassburger Acting Director **Environmental Restoration Division** DOE, RFO

Attn: B. K. Thatcher

PRESENTATION OF THE INTEGRATED OPERABLE UNIT (OU) PROCESS TO THE REGULATORY AGENCIES - MBA-025-93

EG&G Rocky Flats, Inc. (EG&G) is prepared to formally present the integrated approach for non-intrusive field work for the industrial area (IA) Operable Units (OUs) 8, 9, 10, 12, 13, and 14 to the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA). This presentation is in accordance with Department of Energy (DOE) funding guidance and work package rebaselining efforts for Fiscal Year (FY) 1993 for the IA OUs.

The purpose of the meeting would be to present the recent integrated approaches to work scheduled for FY93 and FY94 for the IA OUs. Also, the presentation to CDH and EPA would allow the agencies to contribute in the recent re-scoping of the IA OUs and the integrated approach to field efforts. EG&G would like to schedule a meeting with DOE, CDH, and EPA as soon as possible since the subcontracting process has recently started for implementation of field efforts.

If you have any questions or require additional information regarding this matter, please contact B. D. Peterman of Remediation Project Management at extension 8659.
